

THE EARTHPRO® COLLECTION

Planet friendly. Made from recycled fibres.

THE EARTHPRO® COLLECTION

Certified by Control Union
CB-CUC-1050913

ØRN IS CERTIFIED TO THE GRS - GLOBAL RECYCLED STANDARD, WHICH VERIFIES RECYCLED CONTENT AND TRACKS IT FROM SOURCE TO THE FINAL PRODUCT.

As the demand for recycled product increases, ØRN has committed to an internationally recognised, independently verified certification process to ensure the integrity of its sustainable products. Certification is a means to confirm that the levels of social and/or environmental performance claimed for a product are correct and verified by an external party.

Third party certification is considered one of the strongest ways to ensure the integrity of supply chain and sustainability claims. By using this system, an independent third party gives assurance that a company, process, or product is compliant with the requirements of a particular standard.

THE GRS AUDIT CHAIN

All sites must be certified through to the seller in the last business-to-business transaction. Usually the last stage to be certified is the garment manufacturer or the brand.

THE EARTHPRO® COLLECTION

OEKO-TEX®
CONFIDENCE IN TEXTILES
STANDARD 100 
11-61522 Shirley
Tested for harmful substances.
www.oeko-tex.com/standard100

Standard 100 by OEKO-Tex ensures that every thread, button and other accessories, has been tested for harmful substances thereby rendering it harmless to human health.

Setting the benchmark in sustainable workwear, the EarthPro® collection uses fabric made from recycled plastic to help reduce the harmful effect of disposable plastics on the environment.
