About Leaffield

Leaffield Environmental is a leading manufacturer and designer of street litter and recycling products, supplying leading companies, universities, schools, hospitals and local authorities. We work closely with customers to provide the very best solutions for litter and waste collection.

Recycling is an opportunity to reduce your carbon footprint and save on landfill waste costs. Throughout this brochure we highlight a range of products particularly suited to the needs of recycling.

Leaffield Environmental manufacture using rotational moulding, a fast and efficient method which produces consistent high quality, hard-wearing and stress-free products. We also have the ability to manufacture in 100% recyclable material to BS EN ISO 14001:2015.

For more information please visit our website;
www.leaffieldrecycle.com

We can also be found on:

“ **Having spoken to several bin manufacturers we came to the conclusion that Leaffield Environmental were the only company that really understood our requirements and were willing to develop products to meet them** ”

Sustainability Manager at Bath Spa University

Meridian 87/110

The Meridian was originally designed for universities, and is now part of the furniture in hospitals, schools and businesses. Available in two sizes the Meridian offers a great versatile option for your recycling needs, choose the apertures you require.

The 110 capacity model was designed in partnership with Greenwich University. The 87 capacity model was designed in partnership with Coventry University.

- Ideal for a wide range of internal waste recycling situations
- Use individually or in a group
- Wide range of aperture options (100, 70/30, 30/40/30%)
- Removable liquid reservoir complete with non-spill moulded funnel
- WRAP compliant colour coded apertures and graphics as standard
- Label personalisation
- Area available for personalised graphic or company logo

- Slim body profile makes it ideal for placement along corridors and narrow walkways
- Rotationally moulded A3 signage kits are available, optional securing to the back of the unit or wall mounted
- Optional - Bin Linkage
- Hinged lift lid with ergonomic groove for easy lifting
- Standard posters available

Create the bin of your choice with our mix and match apertures.

APERTURE OPTIONS

Wide range of aperture options;
100, 70/30, 30/40/30%
Flexible and adaptable format allowing the bin to meet your recycling objectives.
Interchange lids allow bespoke waste streams to suit your needs.

EnviroStack 32/52

The EnviroStack offers a small footprint that can accommodate the collection of multiple waste streams or sold as a stand alone unit.

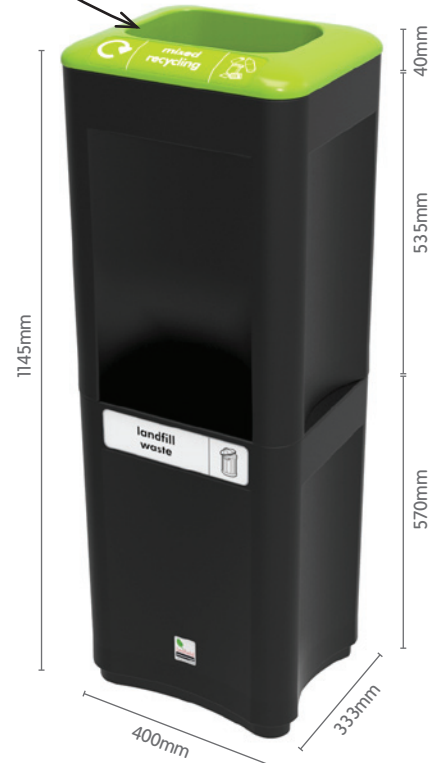

NEW

The stackable EnviroStack designed in partnership with Bath Spa University.

Oval aperture in lid suitable for a number of different waste streams

Stack of two EnviroStack 52 litres x2

Envirostack at Bath Spa University, halls of residence kitchens.

- Suitable for internal use
- Slimline, compact and space saving design
- Ideal for low volume or heavy waste recycling
- Use individually at desk side or in a group
- WRAP colour coded apertures and graphics included as standard
- Sack retention for discreet plastic bag fit
- Oval aperture in lid suitable for a number of different waste streams
- Base tipping recesses for easy emptying
- Strong and durable
- One-piece seamless construction
- Uniform wall thickness
- Superior strength yet lightweight

Black base made from 100% recycled plastic*

WASTE STREAM OPTIONS

Lids/labels available

EnviroStep 90

The EnviroStep is a substantial, 'hands-free' pedal recycling bin. Its wide, shallow foot-print, makes it ideal for use where space is limited. Designed to take three individual waste streams but also available with a single lid, the EnviroStep is equipped with front, non-marking wheels for easy manoeuvrability.

Minimal components used which allows the bin to be completely stripped down for deep cleaning in less than eight minutes.

EnviroStep at Bath Spa University, canteen/student study area.

- Lid closes into tight recess to help contain odours
- Mould-in graphic labels - no sticky edges where bacteria can build up
- Front moulded handle - for ease of manoeuvre and to reduce manual handling
- Option of either a single or triple (30/30/30) waste stream

- Double skin wall of the product is kept in tact even after component assembly providing easy to clean surfaces
- Includes either 90 litre sack retention bar or 63 litre plastic liner
- Complete component strip down - in under eight minutes for deep clean

Front non-marking wheels - for easy manoeuvre.

Easy press pedal operated lid.

A loose fitting drip tray will collect liquid and other waste should a bag leak.

Tilting sack frame, one movement for very quick and safe bin maintenance.

WASTE STREAM OPTIONS

Internal Recycling Range

EcoAce 41, 52, 62

The EcoAce range is available in either 41, 52 and 62 litre capacity making it ideal for small offices wanting to introduce or step up recycling rates. This compact recycling unit has cut out handles to allow users to lift the base to a central collection point.

- Suitable for internal use
- Slimline, compact and space saving design
- Use individually at desk side or in a group
- WRAP colour coded apertures and graphics as standard
- Bag less option
- Oval aperture in lid suitable for a number of different waste streams
- Label and colour customisation - optional extra
- Handles in base for easy lifting

Ideal for low, medium or heavy volume waste recycling

Lift off lid option ideal to collect general waste or food waste.

Black base made from 100% recycled plastic*
*Subject to availability

Desktop Bins

Tiny-Tidy is two small, stylish waste receptacles that, in a world of working lunches and 'tea-breaks without the break', bring recycling right to the desktop.

- Two convenient, colourful 2.5 litre microbins in a robust tray
- Suitable for a variety of waste streams, e.g. food waste, tea bags, stirrers, etc
- Strong, durable, rotationally moulded
- Optional WRAP compliant labels and corporate branding
- Custom colours to suit

Open aperture suitable for multiple waste streams

NEW

Instead of the labels what about adding your company logo?

Strong durable rotationally moulded tray helping to keep the two units together

APERTURE OPTIONS

Internal Recycling Range

Envirobin 55/82

The Mini is ideal for lower volume whilst the Midi is ideal for medium volume waste recycling, use individually, in groups, back to the wall in the office or back to back in corridors.

- Slimline, compact & space saving design
- Sack retaining feature for discreet fitting of a refuse bag
- WRAP compliant, colour coded, apertures and graphics as standard
- Key lock for confidential paper bin
- Aperture shapes include slot, hole, open, propeller, lift-lid, stay open lid
- Mini Ideal for low yield waste streams
- Midi comfortable height for users and cleaning staff
- Area for personalised graphic or logo

Black base made from 100% recycled plastic*
*Subject to availability

These lids are interchangeable between the Mini and Midi, they work well as a family

Instead of the WRAP swoosh what about adding your company logo?

Envirobin 100

Where it all began, the Envirobin 100 is Leafields' first internal recycling range and has remained popular over the years for its great value and service.

- Ideal for a wide range of internal waste recycling situations
- Works well individually or in a group
- Sack retaining feature for discreet fitting of refuse bag
- Wide aperture for larger waste items
- WRAP compliant, colour coded, apertures and graphics as standard
- Aperture shapes include slot, hole, open, cup, split, hooded, flip-top, lift-lid and propeller
- Area for personalised graphic or logo
- Key lock for confidential paper bin

Rotationally moulded A4 signage kits are available, optional securing to the back of the unit or wall mounted

What about residual or food waste? Try a Flip, Hooded or Open top Envirobin.

Envirobin Hub

As demand for recycling segregation at source increases Leaffield Environmental has introduced a new suite of smart, stylish recycling bins that accommodate up to four individual wastestreams. Offering a choice of four separate waste receptacles in a single hub encourages users to stop and think and hopefully make the correct rational segregation decision.

- Suitable for internal use
- Slimline, compact and space saving design
- Use individually or in a group
- Optional apertures available for both Enviropod 33, 43 and Envirobin 100
- Supplied with appropriate WRAP colour compliant lids and labels

Internal Recycling Range

Envirobin 135

The circular format, small footprint and above average capacity makes the Envirobin 135 particularly suited to 'island' or corner locations particularly in higher footfall areas.

- Round Bin with Flip lid for all round access to waste disposal
- Compact 470mm footprint
- Tamper-resistant plunge lock
- Lift-off lid for easy access to liner
- Choice of WRAP compliant colour coded lids with graphics
- Sack retaining feature for discreet fitting of refuse bag
- Smooth, hygienic wipe clean surfaces

Flip top is practical for shopping malls and food halls and available in a choice of WRAP compliant colour coded lids!

Maxi 140

The Maxi recycling bin provides a larger capacity for higher footfall areas both indoors and outside. Ideal locations include food halls, university campuses, entertainment venues and parks. Link them together to form 'Recycling Zones'.

The Maxi is the solution for recycling in larger areas.

- Slimline, compact & space saving design
- Comfortable usage for cleaning staff
- Slam shut door with four strong latch points
- Double skin moulding throughout for exceptional strength
- Easy to use sack retention hoop system
- WRAP compliant, colour coded, apertures and graphics as standard
- Aperture shapes include slot, hole, large hole and propeller
- Area for personalised graphic or logo
- Key lock optional for secure outdoor use

Unique full frontal door system makes emptying a full bin a much easier task!

Envirobank 140/180/240

The Envirobank provides a volume recycling solution in high footfall areas both internally and externally. In external environments the patented 'honeycomb' structure provides exceptional strength and durability, whilst the dimpled surface finish resists 'fly posters'.

Envirobank 240

Ideal for:
Recycling Zones
Car Parks
Transport Terminals
Retail Parks
Universities
Large open areas

Envirobank 240 options also available: Stubber plate, Whisper-close aperture flap and A3 poster frame

- Choice of 140 litre or 240 litre capacity for single waste streams
- 180 litre capacity (2x 90 litre) for split waste streams
- Optional extra; internal wheelie bin or sack retention available (140 and 240)
- Front opening design allows emptying without lifting
- Dimpled surface to deter fly posters
- Heavy duty, automotive grade, tamper-proof lock
- Slam shut door with four strong latch points
- Choice of WRAP compliant colour coded apertures and graphics
- Panel for personalised graphic or company logo (248mm x 200mm)
- Moulded through ground fixing holes for bolt down option
- Moulded drainage holes
- Moulded in stiffening ribs which eliminates the need for ground anchor plates

Twinbin 170

The TwinBin **award winning** design, provides a solution to a growing need in public spaces to, not only, collect waste but also separate recyclable items like plastic bottles and newspapers. It does this in a single compact and robust unit in a design that sits well in both traditional and contemporary environments.

Landfill and recycling...
...have it both ways

- Contains two 85 litre capacity bins
- Choice of WRAP compliant colour coded apertures and graphics as standard
- Front opening design allows emptying without lifting
- Concealed hinge
- Litter (without insert) aperture suitable to accept 12" pizza box

- Moulded drainage channels
- Moulded through ground fixing holes for bolt down option
- Suitable for internal concrete ballast fitted by customers at time of installation
- Panel for personalised graphic or company logo (248mm x 200mm)

Black base made from 100% recycled plastic*
*Subject to availability

TwinBins are manufactured in three parts, the main body and two doors.

This provides additional options for personalisation that includes producing one or both doors in a different colour to the main body.

Personalisation

Choose how your Envirobin will look; tailor the colour, the labelling and specify exactly what you want to collect.

Colours

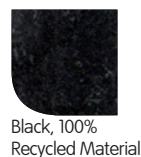

Standard Colours

Premium Colours

Recycled Options

Please call to discuss our recycled option... Available in any colour, as long as it's black!

Leaffield manufactures all products to order so it is possible to produce a bin manufactured to match your colour scheme or other specifications. Any of our Envirobins can be manufactured in any colour selected from our range.

Materials

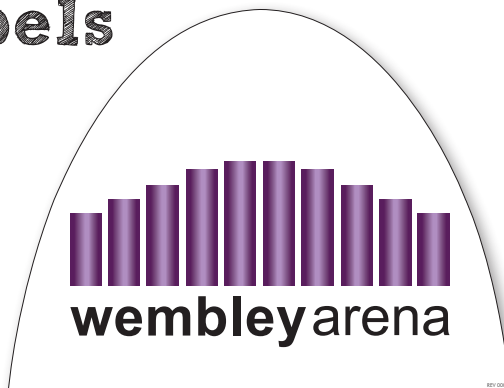

Standard; UV Stabilised Medium Density Polyethene
Fire Retardant
Antimicrobial

* Denotes a colour with a longer lead time
** Denotes a colour with a premium price point

Personal Labels and Posters

Small half-moon for Meridian, Mini, Midi and 100L Envirobin

Large half-moon for Meridian and Maxi Envirobin

The 'half-moon' space on the front of all our Envirobins provides the opportunity to add your own touch! If you choose not to, this space will be filled with the recycling 'swoosh'

Labelling

This is a small example of the waste stream labelling we can offer.*

They are WRAP compliant where possible.
